

BRT CARE PVT. LTD.

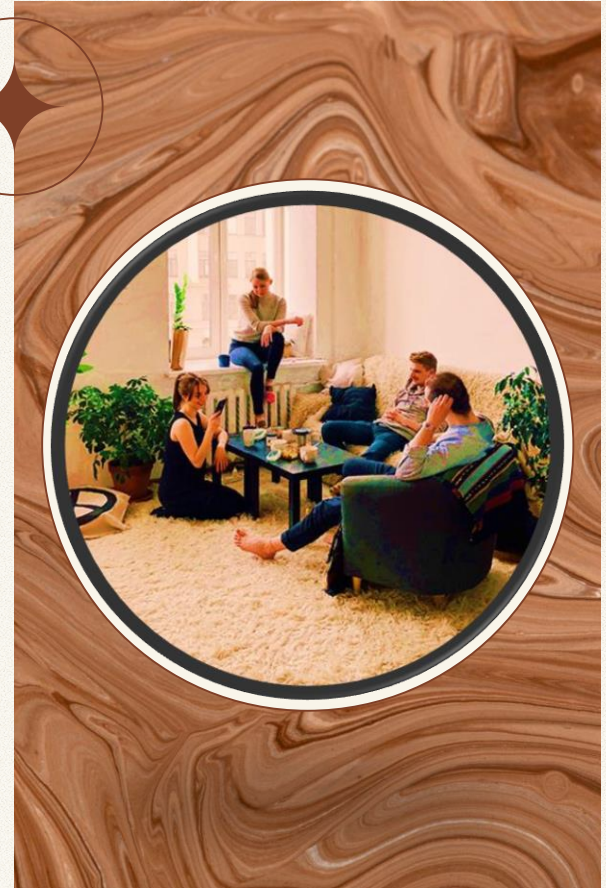

"Our tradition is medical, and so
is our future – secure and
promising."

About BRT Care

We formulate products based on science and not trends. All our products employ high-quality ingredients which nurture skin from the inside because we believe true transformation begins from within.

BRT Care strives hard to formulate skin, hair, and body care products suited best for Indian skin types. Instead of stuffing shelves with products addressing a single purpose or concern, our researchers develop unique products that cover multiple interests for our customers. In turn, this helps to narrow your search for the products that work for you.

Introduction

❖ Our company

BRT Care researchers trade torrents of time envisaging and formulating each product.

The founder is keen on employing natural ingredients of the highest grade to nurture skin, hair, and body from within in each formulation. We tackle skin problems holistically and drive value to each customer who buys BRT Care products by delivering results above expectations.

Who We Are

❖ Our Mission

To provide standardized and researched herbal healthcare products, through continuous innovation, creating healthy lives and delivering outstanding values to our customers and business associates.

❖ Our Vision

To be a Leading International Herbal Manufacturing Company; developing people's trust in quality. We want a successful business that delights customers and team members.

❖ Our Value

The value of a product is determined by how much customers are willing to pay for it. It's a combination of factors, including the quality of the product, its features, and how well it meets customer needs
